

WHY EMPLOYEES LOVE ONUSONE

ONUSONE

Believe it or not, there is a way to feel valued in your job and have the flexibility we all desire!

1 SCHEDULE FLEXIBILITY

OnusOne allows you to create your own schedule within the parameters of your clinic/company. You are afforded this flexibility because of your pay structure. You are in charge of your schedule and when your patients come in for therapy.

2 MAXIMIZE YOUR EARNING POTENTIAL

You are in control of your own earning potential. You have the potential to earn a significant salary...quite possibly greater than at any other job you could find in the industry. This allows you to reach your financial goals at a much faster rate.

3 SENSE OF OWNERSHIP

You are not only valued as an employee but you also feel your own sense of ownership. You allow your skills as a professional to speak for themselves. You have the support of a company around you, which means minimal risk but maximum earning potential.

4 CHANGES WITH LIFESTAGES

We all want options. Options to create a work/life balance, and options when it comes to stability and flexibility. As your life changes, you can change your OnusOne plan. You have the control to earn as much as you would like, without having to take a pay cut and without having to meet someone else's productivity standards.
